

BREAKTHROUGH INNOVATION ADVISORS, LLC

Helping mature companies survive and thrive in a volatile, complex, and increasingly ambiguous world

DISTINCTIVE APPROACH

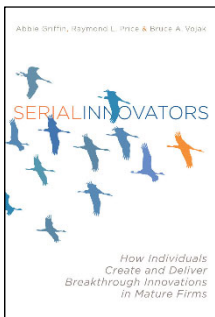

For decades, businesses have managed innovation like a standard business process, achieving incremental innovation and gaining limited business results. While a highly structured and closely supervised approach is helpful, our experience, supported by 20+ years of applied expertise gained from working with numerous industry-leading companies and 10 years of research, reveals it is not conducive to creating the kind of Breakthrough Innovation that leads to significant business outcomes and success. In today's economy, with the future of so many mature firms at stake, this insight brings a clarion call to rethink how to identify and nurture an innovative workforce that creates a competitive advantage.

In sharp contrast to prevailing perspectives, we re-frame the problem by taking a “people” view of innovation. This approach zeros in on the cutting-edge individuals who repeatedly create and deliver Breakthrough Innovations in mature organizations. Unlike Jeff Bezos, Steve Jobs, or Elon Musk, “Serial Innovators” are embedded within their companies and not known by the public at large. Yet, they are organizational powerhouses who disproportionately drive a company’s financial value by bringing forth creativity in identifying value-added opportunities and in solving problems.

We apply proven practices and insights to help clients survive and thrive by fostering Breakthrough Innovation that will drive company performance, growth, and financial success.

FOCUS

- **Mature companies, regardless of industry, seeking to renew their business through innovation**
- **Companies of all sizes**, from small and midsized to large
- **Individuals and groups at all levels**, including owners; CEOs, presidents, general managers; other C-level executives of all types; technical managers; and proven and aspiring Serial Innovators
- **Privately-held and publicly-traded companies**

Bruce Vojak is co-author of [Serial Innovators: How Individuals Create and Deliver Breakthrough Innovations in Mature Firms](#) (Palo Alto: Stanford University Press, 2012)

ABOUT BRUCE VOJAK

Spanning a career at the intersection of business and technology, author and speaker Bruce Vojak is a leading

authority on Breakthrough Innovation. **He has experienced and explored it purposefully and conducted groundbreaking research on its practice.** Prior to forming Breakthrough Innovation Advisors, LLC, Bruce served as Associate Dean and Adjunct Professor in the top-ranked College of Engineering at the University of Illinois at Urbana-Champaign. Earlier he was Director of Advanced Technology for one of Motorola’s business units, held research and business development positions of increasing responsibility at Amoco, and was on the research staff at MIT Lincoln Laboratory.

Bruce currently serves on the Boards of Midtronics, Inc., JVA Partners, and Micron Industries Corporation. Additionally, he periodically consults on the topic of innovation for Procter & Gamble and regularly presents to, leads workshops for, and advises various other companies.

He holds BS, MS and PhD degrees in engineering from the University of Illinois at Urbana-Champaign and an MBA from the University of Chicago’s Booth School of Business.
